

COUNCIL CHAMBER

City of Berea, Ohio

Ordinance No. 2013 - 78

By Richard T. Malott Sponsored By Mayor Cyril M. Kleem

AN ORDINANCE

AUTHORIZING THE MAYOR OF THE CITY OF BEREA TO ENTER INTO A CONTRACT WITH THE GENERAL HEALTH DISTRICT OF CUYAHOGA COUNTY, OHIO, PROVIDING FOR HEALTH SERVICES FOR THE CITY OF BEREA FOR THE YEAR 2014 AND DECLARING AN EMERGENCY.

WHEREAS, a proposed contract between the General Health District of Cuyahoga County, Ohio, and the City of Berea, a copy of which is attached hereto as Exhibit "A" and incorporated herein by reference, has been presented to the Council providing for health services for the City of Berea for the Year 2014; and

WHEREAS, by the provisions of said contract, the General Health District of Cuyahoga County agrees to provide through the District Board of Health of Cuyahoga County, all necessary medical, nursing, sanitary, laboratory and such other health services as are required by the Statutes of the State of Ohio; and

WHEREAS, according to the terms of said contract, the City of Berea agrees, in return for the health services which will be provided by the District Board of Health of Cuyahoga County for the Year 2014, to pay the said District the sum of Seventy Four Thousand Eight Hundred Forty-Five Dollars (\$74,845.00) in equal semi-annual installments of Thirty Seven Thousand Four Hundred Twenty-Two Dollars and Fifty Cents (\$37,422.50) from the regular tax settlement to be made for said City for the Year 2014.

NOW THEREFORE, BE IT ORDAINED by the Council of the City of Berea, State of Ohio:

SECTION 1. That the Mayor of the City of Berea, Ohio, be and he hereby is authorized and directed to enter into a contract with the General Health District of Cuyahoga County for health services for the City of Berea for the Year 2014 in the form attached hereto as Exhibit "A" and incorporated herein by reference.

SECTION 2. That the Director of Finance be, and hereby is authorized and directed to pay out the contract sum of Seventy Four Thousand Eight Hundred Forty-Five Dollars (\$74,845.00) in equal semi-annual installments of Thirty Seven Thousand Four Hundred Twenty-Two Dollars and Fifty Cents (\$37,422.50), and to charge the same to, and the funds therefor are hereby appropriated from the General Fund, designated for accounting purposes as Fund No. 100 for the purposes as set forth in Section 1 above.

SECTION 3. That it is found and determined that all formal actions of this Council concerning and relating to the adoption of this Ordinance were adopted in an open meeting of this Council, and that all deliberations of this Council and of any of its committees that resulted in such formal actions were in meetings open to the public, in compliance with all legal requirements, including Section 121.22 of the Ohio Revised Code.

SECTION 4. That this Ordinance is hereby declared to be an emergency measure necessary for the immediate preservation of the public peace, property, health, safety and welfare or providing for the usual daily operation of a municipal department, and for the further reason that the contract must be in place before January 1, 2014. Therefore, provided this Ordinance receives the affirmative vote of two-thirds of all members elected to Council, it shall take effect and be in force immediately upon its passage and approval by the Mayor, otherwise, from and after the earliest period allowed by law.

COUNCIL CHAMBER

City of Berea, Ohio

ORDINANCE No. 2013-78

By Richard T. Malott Sponsored By Mayor Kileem

Mayor

Approved as to Form:

Director of Law

CUYAHOGA COUNTY BOARD OF HEALTH

YOUR TRUSTED SOURCE FOR PUBLIC HEALTH INFORMATION

October 25, 2013

Mayor Cyril Kleem
City of Berea
11 Berea Commons
Berea, OH 44017

Dear Mayor Kleem:

Enclosed please find the 2014 contract for public health services provided by the Cuyahoga County Board of Health (CCBH). Also included is a list of all our program activities offered to citizens in our health district, some of which may require income qualification.

Chapter 3709 of the Ohio Revised Code stipulates that each city in the State of Ohio "...must provide health services either through a city health district or by a valid contract or union with the county health district or an adjacent city health district." The Director of the Ohio Department of Health certifies this provision of health services annually. To remain certified, the contract needs to be approved by your council and returned to the Cuyahoga County Board of Health by December 31, 2013.

The Board of Health bases our public health service contracts on population. Our per capita rate was \$3.84 for the years 2012 and 2013. Our per capita rate for the upcoming 2014 calendar year is \$3.92, which is a 2% increase. By comparison, the per capita rates in other health jurisdictions are twenty-five to fifty percent higher.

This contract represents the total cost for public health services and remains among the lowest rates in the State of Ohio. As a demonstration of our continued diversification of our funding streams to meet the public health needs of the community while controlling costs to the cities, villages and townships we serve, approximately half of our budget is now supported by federal, state and local grants and contracts. These additional funding sources substantially increase the scope of our service to the citizens of your community. With the economic downturn, we have seen an increase in public health service needs among citizens throughout Cuyahoga County.

The Cuyahoga County Board of Health works with our contract communities on a wide range of public health issues that impact your citizens. Chief among these issues is the prevention and control of chronic diseases like asthma, diabetes, cancer and heart disease, which account for 75% of all healthcare costs. We have also been a convener of a countywide taskforce that is working to address the significant rise in the misuse of opiate prescription drugs and the corresponding and alarming rise in deaths in young

Terrence M. Allan, R.S., M.P.H. Health Commissioner

adults also associated with heroin in Cuyahoga County
(<http://opiatecollaborative.cuyahogacounty.us>) .

We recently released a community health status assessment for Cuyahoga County (http://ccbh.info/hipcuyahoga/?page_id=1175) and we are building a health improvement plan that engages the community in addressing our priority health problems. We are proud to tell you our enforcement of Ohio's smokefree law has yielded a decrease in hospital chief complaints for heart attacks by 28% after the ban took effect. Locally, our enforcement efforts have yielded over a 95% compliance rate among our bars, restaurants, bowling alleys and other businesses, saving millions in tobacco-related healthcare costs for our citizens and communities.

Our work also focuses on a range of existing and emerging public health issues including school age childhood vaccinations and boosters; influenza and pneumonia vaccinations; preventing the movement of raccoon strain rabies from eastern Ohio into Cuyahoga County; and responding and mitigating the proliferation of bed bug related complaints in residential, business and institutional settings. On the clinical front, we provide safety net services for residents for underinsured and uninsured clients.

We remain focused on delivering high quality public health services to your community. Please contact me if you have any questions concerning the 2014 contract, or if you would like us to come to your city and present our contract to your administration or council.

Sincerely,

Terrence M. Allan, RS, MPH
Health Commissioner

Terrence M. Allan, R.S., M.P.H. Health Commissioner

CONTRACT FOR PUBLIC HEALTH SERVICES
(City with a General Health District - Authority--Sec.3709.08 O.R.C.)

WHEREAS, the District Advisory Council of the Cuyahoga County, Ohio, General Health District, at a meeting held March 11, 2013, by a majority vote of members representing the townships and villages did vote affirmatively on the question of providing public health services to the City of Berea, Ohio, and did authorize the Chairman of the District Advisory Council to enter into a contract with the Mayor of Berea, Ohio, for providing public health services therein; and

WHEREAS, the Council of the City of Berea, at a Council meeting held December 2, 2013, by majority vote of all members did vote affirmatively on the question of contracting with the District Advisory Council of the Cuyahoga County General Health District for providing public health services to the City of Berea and did authorize the Mayor to enter into a contract with the Chairman of the District Advisory Council of the Cuyahoga County General Health District to provide public health services.

NOW, THEREFORE, pursuant to such authority, David Smith on behalf of the District Advisory Council of the Cuyahoga County General Health District and Cyril Kleem on behalf of the City of Berea do agree as follows:

The General Health District of Cuyahoga County, Ohio, hereby agrees to provide health services for the City of Berea for the year 2014. These health services will be provided by the District Board of Health of Cuyahoga County and will include all necessary medical, nursing, sanitary, laboratory and such other health services as are required by the Statutes of the State of Ohio. Air pollution enforcement services, as described in Chapter 3704 of the Ohio Revised Code, will be conducted through the designated agent, the Cleveland Division of Air Pollution Control. This authorization is contingent upon renewal of the contract between the Ohio EPA and the City of Cleveland and satisfactory performance of the contract terms and conditions regarding air pollution control in Cuyahoga County. The Board of Health reserves the right to alter, modify or amend this contract provision with notice to the City.

The City of Berea hereby agrees, in return for the health services which will be provided by the District Board of Health of Cuyahoga County for the year 2014, to pay to the Cuyahoga County General Health District the sum of Seventy Four Thousand Eight Hundred Forty Five Dollars (\$74,845.00). This sum of Seventy Four Thousand Eight Hundred Forty Five Dollars (\$74,845.00) the City of Berea hereby directs the Fiscal Officer of Cuyahoga County to place to the credit of the District Health Fund of Cuyahoga County, and the Fiscal Office of Cuyahoga County is hereby authorized to deduct said sum of Seventy Four Thousand Eight Hundred Forty Five Dollars (\$74,845.00) in equal semi-annual installments of Thirty Seven Thousand Four Hundred Twenty Two Dollars and Fifty Cents (\$37,422.50) from the regular tax settlement to be made for said city for the year 2014. This contract shall be in full force and effect from January 1, 2014 through December 31, 2014.

This agency is an equal provider of services and an equal employment opportunity employer-Civil Rights Act 1964

IN WITNESS WHEREOF, we hereunder subscribe our names.

Cuyahoga County Board of Health Programs and Services

The Cuyahoga County Board of Health (CCBH) offers a wide range of public health services to the citizens and communities in our health district. Some of these services may require income qualification or other qualifying criteria. The focus of some of our grant related activities may be specific, based on guidance from our funding agencies. The following is a list of services. For more information, please call (216) 201-2000 or visit us on the web at www.ccbh.net.

Community and Family Services

ENCLOSURE

IMMUNIZATION CLINICS

Immunizations for all ages and TB testing are given at CCBH clinics. Travel vaccine clinics are available twice per month.

NEWBORN HOME VISITING: WELCOME HOME

Mothers that are 200% or greater of the Federal Poverty Level are eligible to receive home visits from a public health nurse. Also eligible for a visit are all teen moms and any mom with an identified medical or social risk factor. The nurse will discuss basic newborn care, home safety, parenting, feeding, and concerns of the parent(s). Additionally, the visit will consist of an assessment of the baby, and will provide the parent(s) with resources and make referrals to community agencies as needed.

LEAD POISONING PREVENTION

Public health nurses provide lead screening, education, and case management. Public health sanitarians perform investigations in response to reports of elevated blood lead levels in children to identify potential sources of lead exposure. Lead risk assessments, housing remediation, and clearance testing are conducted as part of collaboration with the Cuyahoga County Department of Development and our municipalities, through a grant with the U.S. Department of Housing & Urban Development.

BUREAU FOR CHILDREN WITH MEDICAL HANDICAPS (BCMh)

BCMh is a tax-supported health care program of the Ohio Department of Health. BCMh helps link children with special health care needs and their families to qualified providers. The program assists families in obtaining services to diagnose a possible medical condition (Diagnostic Program) and assists with obtaining payment for ongoing services their child might need (Treatment Program). A child may be eligible from birth – 21 years of age.

TITLE X FAMILY PLANNING

Addresses the gap and provides for direct care in reproductive health and wellness services and education, outreach activities, HIV testing, pregnancy testing and planning, STD testing and treatment, and referral to social services as necessary

BREAST AND CERVICAL CANCER PREVENTION PROGRAM (BCCP)

This program forms area partnerships with the goal of reducing the mortality of breast and cervical cancer. The program includes screening, case management, tracking, and follow-up as well as public education.

DENTAL O.P.T.I.O.N.S.

This program links patients with participating dentists or dental clinics where low income patients can receive care at reduced fees or free of charge.

HEALTHY HOMES PROGRAM

This program investigates the relationship between housing conditions and the respiratory health of occupants living in at risk housing. Public health sanitarians conduct healthy homes investigations for income qualifying residents in homes of infants and seniors at risk for respiratory disease (including asthma). Interventions are conducted through a grant with the U.S. Department of Housing & Urban Development.

INDOOR AIR QUALITY

The Indoor Air Quality (IAQ) Program involves the investigation and testing of residences, schools and other public buildings for various indoor air quality indicators on a complaint basis.

CREATING HEALTHY COMMUNITIES

The Creating Healthy Communities (CHC) Program was created to lower the leading causes of death in our communities. Since many diseases are linked to living habits such as poor diet, low activity levels, and smoking, the CHC program is designed to create system and policy changes that promote healthy eating, active living and smoke-free areas in our schools, work places, health care facilities, and neighborhoods. The two main areas of concentration for this program are East Cleveland and Euclid, Ohio.

PERSONAL RESPONSIBILITY EDUCATION PROGRAM (PREP)

The goal of the PREP program is to reduce teen pregnancy and sexually transmitted infection rates for youth in Cuyahoga County and four surrounding counties who are currently in foster care or the juvenile justice systems by educating the direct-care staff in those systems to become trainers in evidence-based pregnancy prevention programming. This train-the-trainer model seeks to enhance professional development at the local level for direct care staff while providing sustainability for pregnancy prevention and life skills education for youth in the foster care and juvenile justice systems.

RYAN WHITE

The Ryan White HIV/AIDS Part A program provides HIV-related services for those who do not have sufficient health care coverage or financial resources for coping with HIV disease. The Cuyahoga County Board of Health (CCBH) serves as the Administrator of the Cleveland Transitional Grant Area (TGA) which serves the following Ohio Counties: Cuyahoga, Ashtabula, Geauga, Lake, Lorain, and Medina. The Ryan white Part A program contracts with local community partners to provide services in the areas of: outpatient ambulatory, medical case management, oral health, medical nutrition therapy, mental health, early intervention, home health care, home and community health care, substance abuse inpatient and outpatient, hospice, housing, medical transportation, outreach, food bank/home delivered meals and psychosocial support services.

Community Assessments

REPORTABLE DISEASE SURVEILLANCE/PUBLIC HEALTH PREPAREDNESS GRANT

The Public Health Emergency Preparedness Grant (PHEP) encompasses reportable disease and surveillance activities. The purpose of this program is to increase public health response and capacity regarding infectious disease, acts of bioterrorism and other major public health events. Activities also include developing emergency plans and supporting the County Emergency Operations Plan by serving as the lead agency under Emergency Support Function (ESF) #8. This program is also supported by the Cities Readiness Initiative (CRI) grant.

IMMUNIZATION ACTION PLAN (IAP)

This program is designed to raise infant immunization rates in Ohio so that 90% of children will be up to date by 24 months of age. This is accomplished by implementing best practices identified to increase immunization rates including immunization assessment, education and tracking objectives.

CHILDREN AND FAMILY HEALTH SERVICES (CFHS)

This program is designed as an organized community effort to improve the health status of women and children in Cuyahoga County, including assessment and monitoring of maternal and child health indicators at the individual community or neighborhood level. The program also provides funding to partner agencies to address child and adolescent health needs, as well as the needs of pregnant women and teens at risk for poor birth outcomes.

CHILD FATALITY REVIEW

This program reviews circumstances surrounding the deaths of children in efforts to make recommendations for actions to reduce preventable deaths in children in Cuyahoga County.

TOBACCO USE / EXPOSURE REDUCTION

This program focuses on reducing the impact that tobacco use/exposure has on the health of county residents. Initiatives currently include encouragement and development of comprehensive tobacco-free school policies, activities to counter the influence of the tobacco industry, and the enforcement of the Ohio Smoke Free Workplace Law.

RABIES CONTROL AND PREVENTION

The primary objective of the Rabies Control and Prevention Program is to monitor the incidence of rabies in domestic and wild animal populations. To achieve this objective, the Board of Health collaborates with the Cuyahoga County Animal Warden's Society, the Animal Protective League, the Ohio Department of Natural Resources Division of Wildlife, the U.S. Department of Agriculture, the Ohio Department of Health, and local veterinarians to discuss and assist in the surveillance of rabies in animal populations.

RODENT CONTROL

The CCBH investigates complaints from homeowners regarding rodent harborages in their neighborhood. As a service to the residents, our licensed pest control applicators identify breeding sites and areas of rodent harborage and apply rodenticides with the homeowners' permission to eliminate infestations.

MOSQUITO CONTROL

This program utilizes an Integrated Pest Management (IPM) approach to reduce the potential spread of disease via mosquito populations and other vectors in Cuyahoga County. This approach combines the activities of surveillance, chemical control and public education. CCBH strives to use the most environmentally sound control measures in its program.

COMMUNITY HOARDING RESPONSE

CCBH staff conduct home visits to provide support, advice, and education to individuals who hoard. Additionally the program works with community partners to identify needed resources and develop best practices for dealing with this challenging issue.

Health Education Programs

PREVENT PREMATURE FATHERHOOD PROGRAM

The goal of the Prevent Premature Fatherhood program is to reduce pregnancy and sexually transmitted infections rates among youth in Cuyahoga County. This is achieved by providing facilitated discussions with male youth ages 11-19 in a community setting, schools, churches, and youth centers on topics such as std and pregnancy prevention, passages to manhood, social media and masculinity and healthy relationships.

UNUSED PRESCRIPTION MEDICATION AWARENESS INITIATIVE

Rates of unintentional fatal poisoning due to prescription medications have risen over 250% since 1999. The unused prescription medication awareness initiative is a collaborative approach to educating the public on the

factors contributing to this new epidemic and informing the public on the proper ways to dispose of unused medications.

CUYAHOGA COUNTY OPIATE TASK FORCE

Since 2007, Cuyahoga County has experienced an alarming rise in overdose fatalities attributed to the abuse of prescription medications. In response to this national and statewide epidemic in 2010 the CCBH partnered with the Ohio Department of Health for an education and awareness campaign Prescription for Prevention: Stop the Epidemic. Cuyahoga County was one of the initial local health departments responsible for creating a local multi-disciplinary coalition to address this public health emergency. This multi-disciplinary coalition aims to strengthen existing initiatives while identifying areas of improvement to reduce the rising trends and illnesses associated with the misuse of prescription medication.

SCHOOL HEALTH

The CCBH contracts with public and private schools, providing comprehensive school nurse services that are designed to allow maximum flexibility to meet the specific needs of the school system. These services include health screenings; disease prevention; health education offerings; review of immunization records; first aid and illness assessment; and case management of children with special health care needs. Additionally, the Division of Environmental Public Health conducts comprehensive environmental health and safety inspections in over 300 school facilities within our jurisdiction. These inspections are conducted on a semi-annual basis and integrate traditional building and classroom sanitation and safety inspections along with emerging issues of chemical laboratory safety, indoor air quality, integrated pest management, playground safety, chemical storage, and vocational safety. CCBH is actively working to promote healthy eating in our school systems through a farm to school initiative. Farm to School links schools and local farms with the goals of serving healthy meals in schools, improve student options, educate students and support local and regional farmers. CCBH is also actively involved in Safe Routes to School Programs with communities and school districts collaboratively to improve children's health and safety while walking and biking to or from school.

SCHOOL-BASED DENTAL SEALANT PROGRAM

This program provides quality dental sealants in a cost-effective manner to the maximum number of Ohio's school children at high risk for dental caries by targeting schools with high rates of eligibility for the Free and Reduced Price Meal Program (FRPMP).

SPECIAL NEEDS CHILD CARE

Public health nurses provide technical assistance to child care providers in order to better serve children with special health care needs. Services include health screenings, development of an individualized care plan, child care provider education and training on medication administration, and medical equipment loans. Additionally, the Division of Environmental Public Health is collaborating with the Ohio Department of Education to administer the licensing and inspection of preschool and school-age child care programs including Head Start agencies, County Boards of Mental Retardation and Developmental Disabilities, and chartered nonpublic schools within our jurisdiction.

Environmental Health and Safety

FOOD SAFETY

The Food Safety programs are an integration of food safety education, inspections, consultations, disease prevention, surveillance, security and training. The emerging disease events across the nation have also led to an increased response to food recalls and numerous consumer food safety education sessions in grocery stores and various public events.

DRINKING WATER QUALITY

The Division of Environmental Health is responsible for administering the Ohio Private Water Systems Program that includes the inspection, sampling and monitoring of wells, cisterns, ponds, springs, hauled water storage tanks, and water haulers within our jurisdiction. In addition, sanitarians respond to questions and concerns in the event of a drinking water boil alert issued by the public drinking water system.

SURFACE WATER QUALITY - RESIDENTIAL

The Household Sewage Disposal Program responsibilities include operation/maintenance inspections, new installations, system abandonment, new lot-split and subdivision reviews, registration of septage haulers, installers and service providers, stream monitoring, inter-agency collaboration, and education. The CCBH provides technical assistance to communities related to sanitary sewer feasibility by providing system and water quality data.

SURFACE WATER QUALITY - SEMIPUBLIC

The Semi-Public Program administers the operation and maintenance inspection program under a contractual arrangement with the Ohio EPA for all sewage treatment facilities generating less than 25,000 gallons of effluent per day.

SURFACE WATER QUALITY - STORM WATER

The Storm Water Program responsibilities include providing Ohio EPA Phase II designated communities assistance in meeting their requirements under the Phase II Program. This includes inventory of designated storm sewer outfall locations, dry weather inspections of outfall locations, sampling of dry weather flows, illicit discharge detection and source tracking for the elimination of the illicit discharge, public educational outreach and good housekeeping programs for community employees.

WATERSHED PROGRAM

The CCBH's watershed program protects public health and our water quality resources from the impacts of point source and non-point source pollution. These programs emphasize the utilization of watershed-based planning within CCBH, as well as collaborative efforts with partnering agencies. The watershed protection programs include a variety of activities that assist our communities and our collaborative partners, including water quality programs, educational outreach, and public involvement programs. The CCBH is also involved in a number of watershed activities including the preparation of watershed action plans for various watersheds within our jurisdiction, and a number of watershed grants including US EPA Section 3189 grants, Ohio Lake Erie Commission Grants, ODNR Coastal Management Assistance Grants, and the Ohio Environmental Education Fund Grants.

SOLID WASTE/MATERIALS MANAGEMENT

The Solid Waste Program inspects solid waste facilities to assure compliance with 3745-27 of the Ohio Administrative Code. These facilities include landfills, transfer stations, construction/demolition disposal sites, infectious waste treatment facilities, compost facilities, construction and demolition debris facilities, scrap tires, open dumping, and industrial/hazardous waste monitoring.

RECREATIONAL FACILITIES

The program responsibilities include comprehensive inspections and monitoring of public swimming pools and spas, marinas, and public and private bathing beaches. Frequent water sample analysis is conducted at bathing beaches from Memorial Day through Labor Day for the determination of bacterial levels and potential public health risks. In addition, near-real-time, same-day, water quality data is being obtained through an innovative technology known as the NOWCAST system for predicting beach advisories at Huntington Beach in Bay Village. A significant emphasis is placed upon education and outreach to help provide the public with accurate bathing beach water quality data.

HOUSING AND RELATED NUISANCES

The Nuisance Abatement Program involves close collaboration with community officials to evaluate and correct common public health nuisance conditions such as unsanitary living conditions, insect infestations and accumulations of garbage, debris, and animal wastes. Investigations are conducted to determine whether a public health nuisance does in fact exist. Abatement of nuisances is pursued to properly correct any such conditions. In some cases, the complaint may need to be referred to the community's building or housing department or to another agency with direct authority over the specific nuisance condition, property maintenance issue, or social service matter.

CORRECTION FACILITIES/INSTITUTIONS

Registered Sanitarians provide inspections of jails and other public institutions upon request from municipalities.

TATTOO/BODY PIERCING FACILITIES

CCBH conducts this program in an effort to help protect the public while they visit these types of facilities and choose to receive some form of body art or piercing. The program incorporates the laws and rules established under Ohio Revised Code and Ohio Administrative Code, which require that all operations that provide tattoo and/or body piercing services to be inspected and approved by local Boards of Health. Tattooing and body piercing procedures present the potential for localized bacterial infection and exposure to blood-borne pathogens. To minimize the risk for the transmission of infectious diseases, the program requires specific procedural, record-keeping, safety, and sanitation standards are in place at these businesses.

PLUMBING

CCBH's Plumbing Program oversees plumbing work conducted in communities that currently choose not to exercise enforcement authority for plumbing. This program oversees plumbing work in both residential and commercial buildings in Chagrin Falls Township and Olmsted Township, and only in commercial buildings located in Bentleyville, Chagrin Falls, Gates Mills, Hunting Valley, Linndale, Moreland Hills and Valley View. CCBH has implemented a Plumbing Regulation which establishes a uniform set of regulations for the registration of plumbing contractors, licensing, permitting, bonding, fees and inspection of plumbing work. Under this regulation, the Board of Health has also adopted sections of Ohio Administrative Code commonly referred to as the "Ohio Plumbing Code".

ORGANIZATIONAL SUPPORT SERVICES

These activities support the Board of Health infrastructure to assure that high quality public health services are delivered throughout Cuyahoga County. Examples of these activities include grants, contracts and other related fiscal support, legal services, human resources, strategic planning and performance goal development and monitoring and customer services.
