Rain Garden

Kurtz Bros.

EarthPro Premium Compost

Recycling

Kurtz Bros., Inc. is a company pioneering the use of recycled commercial and industrial byproducts. These byproducts are now finding homes within the landscape and construction industries. Kurtz Bros., Inc. currently recycles various materials ranging from hardwood byproducts, green waste trimmings and biosolids to steel slag and spent non-toxic foundry sand.

Organic Recycling

Taking the lead in addressing environmental issues, this business area serves as a vessel for organic waste recycling and compost manufacturing for municipalities and private industries. We operate several organic recycling facilities throughout Ohio, in Columbus (the largest organic recycling facility in Ohio), North Royalton
